

Fluid Solutions, LLC, an 18-year company operating in over 150 countries worldwide, is seeking a Fuel Systems Project Manager to assist in the pricing, design, and management of domestic and small international Fuel System and Tank Storage projects. The ideal candidate should possess a working knowledge of pumping systems—preferably fuel systems—and the ability to create proposals and working systems based on project-specific specifications and drawing sets, even when incomplete or inaccurate.

**What you'll be doing:**

- Pricing and managing domestic and small international fuel system and tank storage projects (Fuel, AFFF, OWS, etc.).
- Reviewing specifications and drawings to create proposals for functional systems.
- Pricing regularly offered parts for established and emerging clients.
- Assisting with submittal production and review in coordination with the Division Manager.
- Assisting with coordination drawings and reviewing design layouts.
- Procuring parts and equipment for both international and domestic projects.
- Assisting in the design and estimation of domestic underground storage tank projects.
- Interfacing with factories to release orders, establish shipping schedules, and coordinate with logistics for receiving and quality checks.
- Following up with clients on proposals, submittals, and orders to maintain strong relationships.
- Traveling as necessary and justified for training, support, and project execution

**What you'll need:**

- 2–5 years of experience in estimating and/or field service within the fuel industry
- Knowledge of USTs and/or fuel systems, with a basic understanding of mechanical systems, including pumps and tanks.
- Ability to put together functional systems based on incomplete or inaccurate drawing sets.
- Strong organizational and communication skills focused on collaboration, transparency, and attention to detail—across calls, emails, and face-to-face interactions.
- Customer-centered mindset demonstrating responsiveness, proactivity, and honesty.
- Eagerness to learn and grow technical knowledge in decentralized treatment and fuel distribution systems.
- Proficiency in Microsoft Office and MacBook Pro for documentation and communication.
- Experience with creating and understanding process flow diagrams.

## What's in it for you?

- **Health and dental insurance:** Fluid Solutions covers 100% of your premiums; \$100/week for spouse and dependent coverage
- **401(k):** Eligible after 1 year, with Fluid Solutions matching 100% of your contributions up to 3% of your income and 50% of the next 2%
- **Paid time off**
- **Company-provided laptop and cell phone**
- **Company credit card (Amex)**

Note: Compensation and benefits may vary based on experience, qualifications, and company policy. This information provides a general overview.
